Sonus faber is proud to announce **Arena**, the heritage brand's latest **custom installation speaker collection** offering natural sound reproduction and incredible sonic performance, packaged in the refined Italian design associated with Sonus faber's artisans.

Sonus faber first entered the custom installation space in 2019 with its Palladio series of integrated home solutions. This experience allowed the company's acoustic and engineering experts to develop the new Arena series, **a huge step forward for private home cinema innovation**, merging in-wall installation with home customization to expand flexibility and personalization for the user. Arena embodies the balance between **acoustic power, sonic definition, and innovation**, handmade to last.
